Data is considered correct at the time of publishing.

Data notes and definitions:

- Improvements in the IVS methodology has resulted in a break in series. Please use caution when comparing 2019 results with previous time periods and releases. For further information on methodology changes and impacts refer to the Tourism Research Australia IVS Methodology. All growth rates noted are year-on-year percentage changes. Visitors are classified together under the following experience categories if they nominate that they have participated in at least one of the following activities whilst on a trip.
- To note these categories are not mutually exclusive and visitors may fall into one or more experience categories. International visitors to Victoria have undertaken the activity whilst on a trip to Australia, not necessarily in Victoria.
- Nature-based experiences: visit national/state parks; botanical or other public gardens; go whale or dolphin watching; go bushwalking or on a rainforest walk; go scuba diving; snorkelling; visit wildlife parks / zoos / aquariums.
- Cultural experiences: (*revised definition) attend theatre, concerts or other performing arts, visit museums or art galleries, visit art or craft workshops or studios, attend festivals, fairs or cultural events, visit history, heritage buildings sites or monuments, experienced Aboriginal art, craft or cultural displays, visited an Aboriginal site or community and/or attended an Aboriginal performance (from 2004 only, international only).
- Event experiences: attend festivals, fairs or cultural events; attend an organised sporting event.
