### 4 Volts Electronic Engineering Pty Ltd

**Profile Summary:**
4 Volts is an innovative contract electronics design company specialising in the design of IoT embedded systems and wireless sensors technologies. We offer clients a professional turnkey experience, with services designed to take a new product idea from concept through to production. We focus on fully understanding all aspects of the clients’ requirements (both technical and business) and work on a tailored solution to ensure these requirements are met on time and within budget.

We have worked on over 70 IoT products and projects. Our high calibre engineering team has over 100 years of combined product development experience across a wide range of technologies and industries, and work with clients both in Australia and abroad.

We strive to develop long-term relationships with our clients through:
- Providing industry-leading engineering expertise
- Leveraging extensive experience in a multitude of technologies
- Ongoing commitment to our clients and their evolving needs
- Providing a professional outsourcing experience

**Service Activity:**
- Product Development
- Product Innovation

### Advanced Composite Structures Australia Pty Ltd

**Profile Summary:**
Advanced Composite Structures Australia (ACS Australia) is a world leader in composites technology development and implementation; delivering innovative light-weight designs, advanced manufacture of components and assemblies and through-life support of application-critical composite structures.

ACS Australia is focused on delivering competitive advantage for our clients using novel, cost-effective and practical solutions. This is achieved via provision of precision engineering and manufacturing services, including:
- Light-weight composites design, analysis and optimisation
- Innovative materials and manufacturing technologies
- Globally recognised expertise in inspection and maintenance of composites
- A portfolio of innovative products and patented processes that are available for commercialisation and technology transfer.

ACS Australia has the expertise and experience to conduct and manage any project from start to finish; and commits to the provision of on-going, value-adding technology development, applied engineering services, and niche low-volume advanced manufacturing, with long term engagement being the driving principle.

**Service Activity:**
- Process Innovation
- Product Development

### Aerieum

**Profile Summary:**
Aerieum consist of a team of experienced consultants from a diverse range of industries including, automotive, food, engineering, Government, Industrial and Power to name a few having occupied roles including CEO and CFO of major listed companies, Engineering Management, SME owners and Lean and Agile practitioners and Trainers.

Services provided include:
- Strategic Planning
- Financial Reviews and Profit Improvement Plans
- Sales and Marketing Plans
- Export Development Plans
- Manufacturing reviews
- Costing Reviews
- Delivery (FOT) improvement plans
- Lean and Agile Training
- Workshops & Training
- HR reviews
- Innovation Commercialisation

**Service Activity:**
- Marketing and Branding Strategy
- Business Process and Systems Improvements
- Tender Guidance: Branding Strategy; Marketing Strategy

**Contact:**
- Mr Ryan Leslie
- Job Title: Director

### ALS Industrial Pty Ltd

**Profile Summary:**
ALS offer a suite of testing, inspection and engineering services assisting clients to maximise production, extend asset life, ensure reliable plant operation and achieve compliance.

Since 1957 we have been providing condition monitoring, inspection and engineering services across Australia. We currently maintain over 600 staff nationally across 12 branch locations (and many site based engagements) providing services to the Power, Mining, Oil and Gas and Water Industries nationally. Our services include:
- Condition Monitoring – including vibration analysis, lubricant analysis, thermography, machine balancing, and laser alignment
- Non-Destructive Testing – including all traditional (radiography, magnetic particle testing, dye penetrant testing, ultrasonics, Eddy Current Testing) and advanced methods (including Phased Array Ultrasonics (PAUT), Long range ultrasonics (LRUT), Saturate Low Frequency Eddy Current (SLOFEC), Computed and Digital Radiography
- Vessel Inspection
- Tank Inspection
- Materials Engineering Testing and Consultancy
- Civil and Concrete Testing and Consultancy
- Mechanical Testing
- Reliability and Integrity Engineering

**Service Activity:**
- Process Development
- Industry Standards Implementation & Certification

**Contact:**
- Mr Keith Langdon
- Job Title: Business Manager
- Phone: +61 3 8398 5900
- Mobile: +61 439 018 268
- Email: industrial.bbd@alsglobal.com
- Website: www.alsglobal.com

### Altair Engineering Software Pty Ltd

**Profile Summary:**
Altair is a global multi-disciplinary engineering software and consulting service provider, specialising in the simulation and design of components, systems, vehicles and infrastructure by modelling the structural, fluid, thermal and electromagnetic behaviours which govern their performance.

Altair is a major supplier to defence and industry in all engineering verticals, from medical and marine to automotive and aerospace.

For more information, please go to www.altairengineering.com.au.

**Service Activity:**
- Process Innovation
- Product Development

**Contact:**
- Mr Alexander Quirk
- Job Title: Technical Manager
- Email: quirk@altair.com
- Phone: +61 3 9866 5557
- Mobile: +61 449 877 808
- Website: www.altairengineering.com.au

### ALTIOS International

**Profile Summary:**
ALTIOS is an accelerator for international growth. We provide international expansion and cross-border investment services for SMEs at every stage of their external development. ALTIOS brings together 300 employees from 18 different markets worldwide, including business development consultants, accounting experts, corporate finance specialists, tax & HR professionals to offer in-market structural support to businesses looking to expand and consolidate their overseas activities.

ALTIOS’ services include: market entry & expansion, business development, market assessments & qualification, investment strategy, cross-border acquisition, greenfield & brownfield investments.

**Service Activity:**
- Market Development
- In-Market Support

**Contact:**
- Maxime Elgue
- Phone: +61 411 718 418
- Email: m.elgue@altios.com
- Website: www.altios.com
**AMOG Pty Ltd**

**Profile Summary:**
For more than 25 years, Australian-owned AMOG has provided high-end and award-winning engineering consultancy services to the offshore, marine, mining, rail/transport, and renewable energy sectors. Staffed by highly qualified and experienced civil, structural, and mechanical engineers, AMOG is certified to ISO 9001 Quality Management standards.

Our services include: engineering design and analysis (hydrodynamics, naval architecture), structural engineering, installation engineering and support (analysis, procedures, equipment specification, on-site management), risk and safety engineering (Risk Assessments, Safety Cases, Software Assurance, SIL assessments, audits, training), complex numerical modelling and analysis (including Computational Fluid Dynamics (CFD) and Finite Element Analysis (FEA), and physical model testing and validation.

Familiar with innovation and R&D processes, from concept to commercial product Realisation and throughput All Technology Readiness Levels (TRLs), we can operate within specified domestic and international standards, and provide third party verification, benchmarking, and certification services to advance processes, improve products, and realise commercial potential.

**ANZA Technology Network**

**Profile Summary:**
ANZA Technology Network is the leader in launching Australian technology companies in the U.S. market. Our business accelerator services are world-class, customised and targeted to each individual entrepreneur’s unique needs to build a sustainable, high-growth business in the U.S. Our talented network of market experts are matched with you at each phase of your journey and work with you to develop strategic partnerships, get new customers and raise capital.

**APV Engineering and Testing Services Pty Ltd**

**Profile Summary:**
APV operates Australia’s leading Industrial and Dynamic Test Lab. Specialising in: Dynamic, Crash, Environmental, and Photography & Data Acquisition services across the Automotive, Transport, Industrial, Defence, Marine, Rolling Stock, and Aerospace industries.

APV-T, is a Tier #1 service provider of engineering and test services to many FTSE100, Fortune500, ASX200, and NIKKEI 225 companies around the globe.

Testing and Certification for Environmental, Tensile, Durability, and Dynamic Testing to all International Standards.

We are committed to providing services that consistently meet or exceed our customer’s expectations in terms of quality, timing, and accuracy.

**Arrayware Pty Ltd**

**Profile Summary:**
Arrayware develops hyper-fast, custom-engineered hardware for complex analysis, diagnosis, extreme image processing, time intensive modelling, advanced control, big data solutions, wired and wireless data transport.

Its customer base has grown over twenty years to include: life science; mining; chemistry; medical; communications; physics; automotive; agriculture and finance. The results are 100’s of times speed-up and significant power and space reductions over conventional hardware.

Why our solution is different
Arrayware applies FPGA technology to accelerate digital computation in diverse domains. Unlike other computation technologies FPGAs can drastically accelerate computation even when the problem cannot be solved using parallel computing methods. When algorithms need a high amount data passing between iterative solution steps, FPGAs do not suffer from high performance roll-off.

Regardless of the problem type, FPGA technology uses less power and has less latency than fetch and execute machines such as microprocessors, DSPs, and GPUs.

**Arthur St Digital**

**Profile Summary:**
Arthur Street Digital is a boutique digital marketing agency based in Melbourne and Geelong. Our clients range from national corporations such as News Corp to local small businesses and span all market sectors, including manufacturing. Our services include: Marketing Strategy; Brand Strategy; Digital Marketing Training; Website Development; SEO and SEM (AdWords); Social Media; Content Development; Pay Per Click Campaigns; Marketing Automation; Lead Nurturing

**Australian Continuous Improvement Group (ACIG)**

**Profile Summary:**
A clear view of the way forward, so you can make better decisions, and a guiding hand along the way, so you achieve your goals. That’s what ACIG has been doing for our clients over twenty-five years.

ACIG delivers capacity building and implementation services which directly fit within DEDJTR’s Service Activities of Process Innovation, Business Process and System Improvement; and Business Transformation.

ACIG will work with your team to deliver training and/or implementation of:
- Continuous Improvement
- Change Management
- Process Mapping and Review
- Systems Thinking
- Governance and Strategy Overhaul

Since 1993 ACIG has worked with hundreds of companies throughout the private, not-for-profit and government sectors. Small enough to listen but large enough to deliver, ACIG provides the skills and tools necessary for your organisation to take the next steps with confidence.
A Solutions Approach
A core approach to our business is engineering solutions. This involves several key initial stages including defining client needs and suggestion and development of concept drawings, integration of all elements as well as design, manufacture and installation of the end product.

Tech Enabler
Austeng has a proven track record in providing a bridge between a concept, idea or research and a commercial reality.

Austeng is adept at taking the next step in this process by the novel and creative application of existing technology and/or the development of new technology.

Austeng’s outstanding reputation and track record in the industry was recognised when it was inducted into the Victorian Manufacturing Hall of Fame in recognition of its world class innovative and sophisticated solutions to manufacturing challenges. It has also been awarded 2014 & 2016 Engineers Australia Innovation/R&D Awards.

Avant Group

Profile Summary:
Avant Group offers technical engineering research support combined with marketing and commercialisation guidance and advisory services. The business specialises in technical consultancy and innovation, research and development project management and new market entry and facilitation services.

Avant Group is a team of specialised Business Advisory, Marketing Strategy and Government Grant consultants with representatives across Victoria, South Australia and New South Wales. The Avant Group team works with an array of different businesses from varying industry sectors to identify growth and commercialisation opportunities for its clients.

The business employs a team of engineers to assist companies in R&D project management activities. In addition, the company has a suite of services including marketing and strategic advisory, and trade assistance.

The business is a unique offering in Australia in that it is the only independent firm with multi faceted support services and a strong focus on technical innovation partnerships with clients.

Bayly Group Pty Ltd

Profile Summary:
We know you have some problems, can we help?
- Design Strategy for your business
- New Product Development
- Innovation in food and enhanced packaging
- Grow your business organically

We understand what family business is all about. Bayly is and has been a family business since 1971.

We work to ensure that your family business creates a legacy that you and your family can be proud of for generations to come.

We have a knack for creating great industrial B2B products for our customers and typically serve them for many years.

By helping our customers discover the most valuable, important and unfulfilled needs of their customers, we design products that provide organic growth. This approach is cost effective and guarantees maximum product success in the shortest possible time.

We use our unique design process, proper planning and structure to ensure a delightful experience and reduce the risk of product failure.

If you are looking for family values in your business relationships, Bayly is the place to find them.

BEVINGTON CONSULTING PTY. LTD.

Profile Summary:
For over 25 years the Bevington Group has been providing specialist productivity improvement services in a wide range of government services and commercial sectors, including: aviation; consumer affairs; defence; education; health; human services; local government; transport and border security; trade and treasury and finance.

Our services include:
- Lean and Agile Practice supports rapid non value add (Noise or Waste) removal from processes
- Process Re-engineering Practice provides quantified process and roles data that supports FTE reduction or role redesign
- Operating Model Practice enables the organisation to reconfigure itself to deliver on its products or services. Often a top down (strategic – future view) and bottom up (current view) analysis is required
- Change Management Practice supports the delivery of change that ensures the role, process and system are consider holistically

Bevington Group has significant advantage in delivering productivity improvement services compared to larger, generalist consultancies because of our:
- Specialisation – Our personnel are specialists in our core disciplines. They are supported by leading edge methods, powered by advanced cloud based software
- Methods – We deploy a series of methods which means that you have data to make important decisions about your business. These methods have been tested and proven in hundreds of assignments
- Knowledge transfer – We provide a genuine knowledge transfer service, growing the capability of your team, so they can lead the definition and delivery of change

BIG Change Opex Pty Ltd

Profile Summary:
BIG Change Agency are specialists in helping businesses to increase profits by transforming company culture and engagement levels while at the same time improving business capability through training and consulting in business process improvement tools including but not limited to Business Process Mapping, Lean and Six Sigma and Strategic Assessment and Analysis.

Our services include:
- Market Development Plan
- Marketing and Branding Strategy
- Implementation & Certification Tender Guidance
- Industry Standards
- Process Innovation
- Product Development

C4 Engineering Pty Ltd

Profile Summary:
C4 Engineering is an engineering consultancy that provides technical and project delivery services. Our ISO-15288 Systems Engineering team offers requirement development, management, modelling and test services using DOORS, CORE and ReqPro.

We also offer RF antenna performance modelling alongside design of ICT networked systems that incorporate CISP accredited cybersecurity architecture, vulnerability analysis, design and test including cyber risk management and auditing.

Members of our team are certified as a vibration analyst Cat. II in accordance with ISO 18436-2 and can conduct surveys to ISO10816-3, AS1269 and AS1270.

Our Defence recognised structured team provides problem solving for mechanical and marine structure Australia wide. The team can provide a range of technical design packages supporting bespoke structural designs and system modifications. From systematic assessment and analysis we can provide solutions engineered to survive extreme conditions found in defence and maritime environments.

Cobalt Design Pty Ltd

Profile Summary:
Cobalt is an industrial design and mechanical engineering consulting group offering a full service range for new product development.

Our clients range from multinationals to start-ups, within a range of industries:
- Analytical, medical devices
- Commercial, industrial products
- Transport design
- Consumer products, including sporting and soft goods

Our inhouse product development capability includes
- Industrial Design
- Insight-driven analysis & research
- User-interface (GUI) design
- Product Design and Mechanical Engineering
- 3D Printing for manufacture
- CAD/CAM modelling
- Simulations; FEA, fluid, moldflow etc
- Prototyping, 3D-Printing
- Mechanical testing (load, ingress etc)
- Production sourcing & tooling management

We bookend the above:
- At the front end, when the opportunity is being defined – Design strategy, Design thinking, Ethnographic research etc.
- At the tail end, when the product is being prepared for launch – Marketing support services, CG animations, Packaging etc

Conflux Technology Pty Ltd

Profile Summary:
Conflux Technology is an Advanced Manufacturing operation focused on the design, development and serial production of parts utilising direct metal additive manufacturing (AM) technology.

Manufacturing is changing rapidly. Leading organisations are embracing the unique capabilities of AM to improve product performance and innovation speed, and gain competitive advantage in a global market. However, integrating AM into existing process poses considerable challenges for those without existing expertise.

Conflux Technology works with organisations through pain-point identification, solution ideation, concept development and selection, engineering design and simulation, prototype production and validation testing, so they can realise the power of AM.

We are an applications focused company with experience in the customer journey on the adoption and development for AM.

FAL Patents Pty Ltd

Profile Summary:
A boutique IP law firm specialising in intellectual property, FAL Patents has the expertise to not only protect but also maximize our clients’ most valuable asset – their IP. FAL's clients include IP and technology innovators within industry, research organisations, CRCs, the Victorian and Commonwealth government departments and key agencies together with start-ups and SMEs.

As a specialist IP practice, FAL can offer key benefits to clients including:

- Commercially focused approach to the protection, management and leveraging of IP assets
- Patent, trademark, design and commercial IP legal experts in one office
- In-house patent and trade mark renewal management which is not handled by third parties
- Strong global networks with trusted IP service providers
- Accessible, responsive and personable IP team practitioners
- Flexible, customised and strategic approach to client needs
- Experienced IP records management and administrative support staff
- Highly competitive pricing without the “big firm” overheads
- Commercial legal expertise available if required

High Performance Consortium

Profile Summary:
We have delivered bespoke Management Consulting services to SME and large clients in Australia and internationally for over 15 years. Our associates are experienced industry practitioners who have held senior leadership positions in global manufacturing and branded businesses. Our multi-disciplined team leverages their extensive experience, industry knowledge and relationship networks to deliver pragmatic solutions to clients using appropriate methodologies and tools.

Our overarching philosophy is to share our industry knowledge, experience and expertise with clients, so they can develop their own capability to adapt and grow.

We begin by understanding our client’s needs, aspirations, objectives, positioning and capabilities as well as assessing our business strategic alignment to form a productive working relationship.

Based on the client’s needs and capability, we select the appropriate team and resources to address our local and international networks, collaboration partners and associations. Having agreed a project plan, we regularly review progress with our client to maintain alignment, address any roadblocks and adjust the plan to maximise the business outcomes.

Our clients are progressive organisations across many sectors including but not limited to Food, Beverage, Packaging, Transport Technologies, Defence Technologies, Pharmaceuticals and Construction Technologies. We are ready to commence a dialogue with your leadership team now.

Innovative Training Pty Ltd (Vative)
**KPMG (Australia)**

**Profile Summary:**
The KPMG team is passionate about manufacturing with experience working with and within some of Australia’s most successful manufacturers (both large and small). We bring industry leading know-how to improve the capability and profitability of advanced manufacturers. With strong local, national and global networks we are also able to connect our clients to global opportunities and bring the latest insights, from around the world, to our clients.

KPMG is a significant supporter of founders, sole-proprietors and entrepreneurial small-to-medium enterprises (SMEs). We apply proven and tested methodologies to assist businesses to achieve business growth, improvement and profitability and to scale their business through planning and identifying new domestic and international growth opportunities. KPMG’s advanced manufacturing team works with our clients to develop enhanced business processes, improved business models and accelerated growth (in Australia and overseas). KPMG also possesses considerable technical expertise in the form of highly qualified and experienced scientists and engineers across a broad range of disciplines that can be used to resolve technical challenges and assist with the development of innovative solutions in order to grow our client’s business.

In short, KPMG seeks to assist advanced manufacturers to prepare their business for growth through:

- A well-defined value proposition for domestic and international business development;
- A clear plan for business growth (including operational efficiency, business process improvement etc.);
- A clear understanding of global market opportunities;
- A plan to win business overseas and support (leveraging KPMG’s global networks) to execute that plan; and
- Access to engineering and technical experts from a range of sectors to provide a different perspective on related business challenges.

Planet Innovation
Profile Summary:
Planet Innovation is an Australian company that specialises in developing and commercialising products that have a positive impact on the world. We provide technology innovation, product development and commercialization expertise to companies around the world and we focus on the biomedical, clean-tech and hi-tech industries.

We have over 250 brilliant, passionate and commercially focused employees, including product developers, engineers, scientists, industrial designers, technicians, project managers and QA managers.

We specialize in Biomedical and Hi-Tech connected devices; and excel at exploiting the technology convergence between these sectors. In addition to developing products for our clients we also develop and launch our own products and platforms. We apply the learnings from developing these internal products to benefit all our clients by ensuring that if there is a faster, smarter way to help clients launch their products then we will achieve this by leveraging existing technologies.

Procept
Profile Summary:
At Procept we are specialists in product development and design for IoT Products, Medical Devices and Consumer Wearables. Our goal is to build businesses by providing services in product development and design, all the way from initial concept to volume manufacturing.

We work at the intersection of business and product development. Using a combination of product management and engineering skills we explore where business and technology feasibility meet. Using our engineering experience in connected technology we make opportunities real through research, rapid prototyping, product development and world-class manufacturing support.

We have over 10 years’ experience in the hardware and software that drives connected hardware. By staying up to date on the latest technologies we’re able to bring fresh thinking to revolutionary product ideas. Delivery is our strength. Our experience cuts through the mass of standards, protocols, and available technologies for IoT Products, Medical Devices and Consumer Wearables. This approach will ensure our clients achieve the right business outcome required from their investment in development efforts.

Rightstrategy
Profile Summary:
Rightstrategy has been successfully providing a range of ‘business improvement’ related services to the sector for over 25 years. In that time we have directly supported numerous Large Multi-National OEM’s as well as Small and Medium sized Enterprises both here in Australia and in overseas assignments.

We are a very cost effective solution for the sector.
We do not profess to be all things to all people, rather, we have a targeted service offering aimed at helping our customers get the right balance between being effective in the marketplace and being efficient with the delivery of their products and services.

Our team are very experienced and we ensure that level of experience and quality is maintained throughout the entire tenure of our improvement projects.

The objective of our team is to assist with the creation of sustainable improvement. We do this by using a very practical and hands on approach focused on engaging the customer’s team and transferring our knowledge and skills in the simplest possible way.

Through the ‘Boost Your Business Program’ we believe that we can add a lot of value to organisations whose capability includes design, manufacture and service support with sales revenue up to approximately $50M P.A.

Roaring Success

Profile Summary:
Roaring Success Pty Ltd is a niche business consulting firm that has been helping our SME customers to overcome growth challenges in the areas of strategy, marketing and performance since 2010.

Our customers generally have sales ranging from $3m-5m at the low end, averaging around $10m-$50m, and an on to $200m revenue; and find themselves in businesses with a mix of product development, manufacturing and service capability.

We have a wide range of industry and manufacturing experience including the automotive components sector, plastic parts production, metal components forming and the like.

All clients we work with generally need help with one or more of areas of strategy, marketing or performance.

In 2012, we created and ran the Ford of Australia, Supplier Diversification Program which helped 13 auto component suppliers to think though how to diversify. [Details available on request.]

We have most recently been working as an approved supplier to help 11 clients on the Victorian Government’s ASCTP Program, and we regularly win work with manufacturing clients on the Federal Government’s Entrepreneurs’ Program.

We offer our services to eligible customers who are energised to create and win new business opportunities.

We have a team based methodology - operating the company with 1 director and 7 registered associates.

Robert Bosch Australia

Profile Summary:
Our Manufacturing Solutions division is globally recognised for their innovative work in engineering services. As part of our dedication to quality and customer satisfaction, we offer a highly structured approach to project management, overseeing the quality, cost of ownership and risk management, keeping our customers informed every step of the way.

Our flexibility in manufacturing solutions allows us to create:
1. Improvement of yield and throughput on assembly lines
2. Designing, building, installing and integrating assembly lines for electronic products in both low volume and highly automated/high volume applications
3. Development of various assembly and joining processes
4. Integrating equipment into different servers / Manufacturing Execution Systems
5. Process Innovation; Tender
6. Control System Engineering
7. Integration to MES
8. Integration into all facets of i4.0
9. Assembly and Testing Facilities

Solutions
1. Automated Test Systems
2. Production Automation Solutions
3. Turnkey Special Purpose Equipment
4. LEAN Manufacturing Services
5. Project Management
6. Mechanical & Electrical Design
7. Process Engineering
8. Control System Engineering
9. Integration to MES
10.  Implementation & Certification

Facilitating Design for Manufacture process reviews and i4.0, resulting in significant manufacturing efficiencies, material, labour and equipment savings along with establishing robust and reliable manufacturing solutions. Bosch globally supports leading brands through all major industries and SME’s and sectors, to do things more safely, with greater efficiency and improved quality.

Profile Summary:
Engineering, design and business services cover all stages of the project lifecycle. We cultivate resourceful cost-effective, best-for-project solutions, enhancing industry development and innovation, across new ideas and links to technology. We have a global network of knowledge transfer. Our team has over 40 years of experience in mechanical engineering, industrial design, construction, logistics, procurement, and environmental sustainability, and materials recycling. Our workforce’s diverse talent pool, generates different perspectives, inspires creativity, drives innovation, and results in the delivery of valuable outcomes.

- Project & Product Management: manage scope, planning, co-ordination, execution and problem-solving.
- Asset Management: holitic approach to manage physical & infrastructure assets throughout lifecycle.
- Research &Development: accelerate positive correlation between research, development and productivity.
- Risk Management: risk assessment, modifications, procurement, operational and safety factors.
- Supply Chain Management: integrated approach to create net value and build competitiveness.
- Tender Writing: communication & branding strategy, well-structured, persuasive and comprehensive submissions

Strategic Project Partners

Profile Summary:
Strategic Project Partners is a mid-sized high-impact general management consulting firm. Based in Melbourne and Sydney, Australia, we work with Senior Executives, General Managers and CEOs on difficult strategic and operational challenges.

As a generalist management consulting firm we can support organisations across any part of their lifecycle. We have a specific capability in end-to-end business development – identifying strategic options, developing innovative solutions, establishing commercial deals with suppliers, channel partners and distributors, and assisting with delivery of an operational outcome.

When we deliver projects, whether it’s a strategic study or the implementation of process change, we focus on:

- Excellence in project management
- An obsessive focus on project benefits
- Robust analysis, which is clearly (and simply) communicated
- Bringing experience to bear throughout the project life cycle

Our aim is to deliver high impact, practical results, no matter the industry the organisation is looking to succeed in.

[Created from an application form on the Grants portal]
Successful Endeavours Pty Ltd

Profile Summary:
Successful Endeavours designs electronics based products that are intended to be manufactured in Australia.
Our primary services are:
- Requirements capture and analysis
- Technology selection
- Electronics Design
- PCB Layout
- Software Development
- Prototyping
- Production preparation

Our aim is to provide affordable but world class product development services that allow you to be locally and internationally competitive in your chosen market.

And we can also manufacture the product for you if you want that too. Some examples of products we have developed are:
- GPS trackers
- Vehicle management systems
- High voltage power distribution equipment
- Industrial controls
- Optical instruments
- Custom IoT
- Ultra-low powered sensors
- Telemetry
- Electronic Locks
- Bushfire prevention systems
- Smart city sensors
- Air quality monitoring

Treadstone Enterprises Pty Ltd
Profile Summary:
Treadstone offers a pragmatic approach to help manufacturers grow. We specialise in delivering capability improvement and business strategy consulting in line with the Boost Your Business voucher guidelines.
Established in 2008, Treadstone’s consultants are industry practitioners who have deep backgrounds working with founders, CEOs and senior management at various stages of growth. We delivered workshops under the Victorian Government’s Innovation Voucher Program as an approved supplier from 2012 to 2014 and are pleased to be approved for the new Boost Your Business Voucher program in 2018.
Our clients are from a range of industry sectors including, food and beverage, transport, agricultural machinery, defense technologies, engineering, sport tech, furniture, glass manufacturing and construction.
- Business Process and Systems Improvements

Our team has wide experience in evaluating business processes and systems and developing business cases for new technologies. We have experience in research, design and install of large scale processes. We can also review existing systems to maximise your operational performance and benchmark against best practice.

- Market Development Plan

Our approach is the pragmatic consideration of the current business assets, processes and value proposition in respect to the goals of the business owner and the market opportunities. We start with a comprehensive business review to capture the knowledge and sentiment of the business management team. We design tailored workshops to test and address the priority issues, and build your business roadmap with a clearly defined action plan.

TRICYCLE DEVELOPMENTS PTY LTD
Profile Summary:
Tricycle Developments is a full service product development organisation with a strong focus product commercialisation.
Our company is structured to provide an agile and personable service from initial idea generation through to product commercialisation.
We run a team of 16 staff with a proven network of partners. Our team has broad experience in developing products across the biomedical, medical, industrial, care and consumer product sectors.
We have a strong internal discipline in full program management of electromechanical solutions, industrial design, mechanical and production engineering.
Our Melbourne based studio and adjoining workshop and lab spaces combine as a collaborative environment designed for agile product development. This allows us to design, build and test in house- ensuing proven solutions and successful project outcomes.

TXM Lean Solutions Pty. Ltd. ATF TXM Lean Solutions Unit Trust
Profile Summary:
TXM are Australia’s leading Lean Manufacturing consultants with offices in every state. Home grown in Victoria, TXM are now a global operation with offices in China, UK, France, Canada and the USA. The key to our success over the past 15 years has been our focus on delivering outstanding and sustainable business improvement through Lean, especially for SMEs. TXM Consultants pride themselves on being manufacturing people first and Lean manufacturing consultants second. Every member of our team has extensive practical manufacturing experience including in leadership and management roles in addition to their deep knowledge and experience in Lean Thinking. This means that we develop a program tailored to your unique needs that will deliver a sustainable business transformation.

University of Melbourne
Profile Summary:
As Australia’s #1 University in Engineering and Technology, and ranked #1 overall in Australia and 32nd globally, The University of Melbourne is ideally placed to assist Victorian businesses strengthen Advanced Manufacturing capability and capacity. We’re also world-class in industry engagement and collaboration – we’re the only Australian University in Nature’s index ranked 40th for the number of bilateral partnerships forged with corporates. Our dedicated business development team works with industry of all sizes, and can facilitate leveraging our national and international networks.
We offer world-class expertise and facilities in most aspects of Advanced Manufacturing, including:
- Advanced materials development (including custom-designed materials using integrated computational material engineering)
- Advanced fabrication techniques (including additive manufacturing/3D printing)
- Prefabricated construction and manufacturing
- Advanced automation, control & optimised scheduling
- Data analytics, machine vision, artificial intelligence and robotics to improve process control, quality, cost and safety
- Industry 4.0

Contact us today to discover how we can work together.

Whistle Design Group Pty Ltd
Profile Summary:
Whistle provides end-to-end technical product development support to our clients. Our team of designers and engineers help with user research, ideation and concept development, detail design, production documentation and support, and tooling and manufacture sourcing.
