Advanced Composite Structures Australia Pty Ltd

Profile Summary:
Advanced Composite Structures Australia (ACS Australia) is a world leader in composites technology development and implementation; delivering innovative light-weight designs, advanced manufacture of components and assemblies and through-life support of application-critical composite structures.

ACS Australia is focused on delivering competitive advantage for our clients using novel, cost-effective and practical solutions. This is achieved via provision of precision engineering and manufacturing services, including:
- Light-weight composites design, analysis and optimisation
- Innovative materials and manufacturing technologies
- Globally recognised expertise in inspection and maintenance of composites
- A portfolio of innovative products and patented processes that are available for commercialisation and technology transfer.

ACS Australia has the expertise and experience to conduct and manage any project from start to finish; and commits to the provision of on-going, value-adding technology development, applied engineering services, and niche low-volume advanced manufacturing, with long-term engagement being the driving principle.

**Australian Continuous Improvement Group (ACIG)**

**Profile Summary:**
A clear view of the way forward, so you can make better decisions, and a guiding hand along the way, so you achieve your goals. That’s what ACIG has been doing for our clients for over twenty-five years.

ACIG delivers capacity building and implementation services which directly fit within DEDJTR’s Service Activities of Process Innovation, Business Process and System Improvement, and Business Transformation.

ACIG will work with your team to deliver training and/or implementation of:
- Continuous Improvement
- Change Management
- Process Mapping and Review
- Systems Thinking
- Governance and Strategy Overhaul

Since 1992 ACIG has worked with hundreds of companies throughout the private, not-for-profit and government sectors. Small enough to listen but large enough to deliver, ACIG provides the skills and tools necessary for your organisation to take the next steps with confidence.

**Bayly Group Pty Ltd**

**Profile Summary:**
We know you have some problems, can we help?
- Design Strategy for your business
- New Product Development
- Innovation in food and enhanced packaging
- Grow your business organically

We understand what family business is all about. Bayly is and has been a family business since 1971.

We work to ensure that your family business creates a legacy that you and your family can be proud of for generations to come.

We have a knack for creating great industrial B2B products for our customers and typically service them for many years.

By helping our customers discover the most valuable, important and unfulfilled needs of their customers, we design products that provide organic growth. This approach is cost effective and guarantees maximum product success in the shortest possible time.

We use our unique design process, proper planning and structure to ensure a delightful experience and reduce the risk of product failure.

If you are looking for family values in your business relationships, Bayly is the place to find them.

**BEVINGTON CONSULTING PTY. LTD.**

**Profile Summary:**
For over 25 years the Bevington Group has been providing specialist productivity improvement services in a wide range of government services and commercial sectors, including: aviation; consumer affairs; defence; education; health; human services; local government; transport and border security; trade and treasury and finance.

Our services include:
- Lean and Agile Practice supports rapid non value add (Noise or Waste) removal from processes
- Process Re-engineering Practice provides quantified process and rules data that supports FTE reduction or role redesign
- Operating Model Practice enables the organisation to reconfigure itself to deliver on its products or services. Often a top down (strategic – future view) and bottom up (current view) analysis is required
- Change Management Practice supports the delivery of change that ensures the role, process and system are consider holistically

Bevington Group has significant advantage in delivering productivity improvement services compared to larger, generalist consultancies because of our:
- Specialisation – Our personnel are specialists in our core disciplines. They are supported by leading edge methods, powered by advanced cloud based software
- Methods – We deploy a series of methods which means that you have data to make important decisions about your business. These methods have been tested and proven in hundreds of assignments
- Knowledge transfer – We provide a genuine knowledge transfer service, growing the capability of your team, so they can lead the definition and delivery of change
C4 Engineering Pty Ltd

Profile Summary:
C4 Engineering is an engineering consultancy that provides technical and project delivery services. Our ISO 15288 Systems Engineering Team offers requirement development, management, modelling and test services using DOORS, CORE and ReqPro.

We also offer RF antenna performance modelling alongside design of ICT networked systems that incorporate CISP & accredited cyber security architecture, vulnerability analysis, design and test including cyber risk management and auditing.

Members of our team are certified as a vibration analysts Cat. II in accordance with ISO 18436-2 and can conduct surveys to ISO10816-3, AS1269 and AS1270.

Our Defence recognised structural team provides problem solving for mechanical and marine structure Australia wide. The team can provide a range of technical design packages supporting bespoke structural designs and system modifications. From systematic assessment and analysis we can provide solutions engineered to survive extreme conditions found in defence and maritime environments.

Confux Technology Pty Ltd

Profile Summary:
Confux Technology is an Advanced Manufacturing operation focused on the design, development and serial production of parts utilising direct metal Additive Manufacturing (AM) technology.

Manufacturing is changing rapidly. Leading organisations are embracing the unique capabilities of AM to improve product performance and innovation speed, and gain competitive advantage in a global market. However, integrating AM into existing process poses considerable challenges for those without existing expertise.

Confux Technology works with organisations through pain-point identification, solution ideation, concept development and selection, engineering design and simulation, prototype production and validation testing, so they can realise the power of AM.

We are an applications focused company with experience in the customer journey on the adoption and development for AM.

Deloitte Australia

Profile Summary:
Deloitte’s Manufacturing Team appreciates the nature of the changes that the local sector is undergoing, particularly in regard to the middle market.

The advent of the advanced manufacturing toolkit, and assisting companies in understanding which of these innovations should be prioritised for their business, and how they are integrated into individual production processes are key.

The team has worked with a number of manufacturers on diversification strategies, and can support businesses in seeking to establish new markets and products. We work with around 600 Australian businesses in regard to their R&D and innovation programs.

Through the Boost Your Business program, we seek to bring these insights to Victorian manufacturers, focusing on the implementation of innovation strategies and intellectual property issues.

Deloitte’s Global Consumer and Industrial Products group also provides access to a range of leading edge international insights to support the development of Victoria’s manufacturing base.

Design + Industry

Profile Summary:
Design + Industry is Australia’s largest and leading industrial design and product development consultancy, with over 50 specialist designers and engineers working out of offices in Melbourne and Sydney.

By combining design thinking with in-house mechanical engineering expertise and extensive manufacturing knowledge, D+I are able to provide a complete industrial design and product development solution for clients ranging from startups to global brands.

D+I have been internationally recognised as leaders in the design of consumer, business and medical devices, with more than 165 awards for design and engineering excellence. These local and international awards acknowledge our ability to deliver the best solution for any application, in any market with any production process.

D+I has been driving success for clients in global markets for over 30 years. From research and strategy, concept development, product design and engineering, to prototyping and manufacturing - D+I are your proven partner.

Dinner For Two or More Pty Ltd

Profile Summary:
GYB Regional is a Regional Business Consultancy specializing in Strategic Planning, Market Development, Export Marketing (QIP EDMG Consultant). Chris has worked with many of the most entrepreneurial businesses throughout the region as a highly respected business consultant over the last 16 years and has delivered many RDV programs including but not limited to My Business My People, Grow Your Business, Business Continuity and Business Intelligence Program. High Performance Consortium

Profile Summary:

We have delivered bespoke Management Consulting services to SME and large clients in Australia and internationally for over 15 years.

Our specialists are experienced industry practitioners who have held senior leadership positions in global manufacturing and branded businesses. Our multi-disciplined team leverages their extensive experience, industry knowledge and relationship networks to deliver pragmatic solutions to clients using appropriate methodologies and tools.

Our overarching philosophy is to share our industry knowledge, experience and expertise with clients, so they can develop their own capability to adapt and grow.

We begin by understanding our client’s needs, aspirations, objectives, positioning and capabilities as well as assessing our business strategic alignment to form a productive working relationship.

Based on the client’s needs and capability, we select the appropriate team and resources from our extensive local and international networks, collaboration partners and associates. Having agreed a project plan, we regularly review progress with our client to maintain alignment, address any roadblocks and adjust the plan to maximise the business outcomes.

Our clients are progressive organisations across many sectors including but not limited to Food, Beverage, Packaging, Transport Technologies, Defence Technologies, Pharmaceuticals and Construction Technologies. We are ready to commence a dialogue with your leadership team now.

**KPMG (Australia)**

**Profile Summary:**
KPMG is a significant supporter of founders, sole-proprietors and entrepreneurial small-to-medium enterprises (SMEs). We apply proven and tested methodologies to assist businesses to achieve business growth, improvement and profitability and to scale their business through planning and identifying new domestic and international growth opportunities. KPMG’s advanced manufacturing team works with our clients to develop enhanced business processes, improved business models and accelerated growth (in Australia and overseas).

KPMG also possesses considerable technical expertise in the form of highly qualified and experienced scientists and engineers across a broad range of disciplines that can be used to resolve technical challenges and assist with the development of innovative solutions in order to grow our client’s business.

In short, KPMG seeks to assist advanced manufacturers to prepare their business for growth through:
- A well-defined value proposition for domestic and international business development;
- A clear plan for business growth (including operational efficiency, business process improvement etc.);
- A clear understanding of global market opportunities;
- A plan to win business overseas and support (leveraging KPMG’s global network) to execute that plan; and
- Access to engineering and technical experts from a range of sectors to provide a different perspective on related business challenges.

**La Trobe University**

**Profile Summary:**
At La Trobe University, we believe there are exciting times ahead for Australian Manufacturing. Industry must create impact and attain market influence by embracing innovation. The synergy between invention, science, engineering, and technology will be used to take R&D and turn its outcomes into competitive and desirable products or services. We will deliver:

- Development of technologically intensive products or systems that help industry compete globally in markets such as Agriculture, Infrastructure, Medical, Defence, Space and Aerospace;
- Development of innovations to facilitate access to these markets;
- Gap analysis, assisting companies who have a product, idea, capability or development they want to bring to the marketplace;
- Assistance with risk management, especially as it relates to compliance for ISO9001, A9100, ISO 13485 and ISO4001;
- Facilitating business-to-business R&D in the advanced manufacturing space domestically and internationally.

We aim to match synergistic companies with La Trobe staff to build high-performing teams.

Procept

Profile Summary:
At Procept we are specialists in product development and design for IoT Products, Medical Devices and Consumer Wearables. Our goal is to build businesses by providing services in product development and design, all the way from initial concept to volume manufacturing.

We work at the intersection of business and product development. Using a combination of product management and engineering skills we explore where business and technology feasibility meet. Using our engineering experience in connected technology we make opportunities real through research, rapid prototyping, product development and world-class manufacturing support.

We have over 10 years’ experience in the hardware and software that drives connected hardware. By staying up to date on the latest technologies we’re able to bring fresh thinking to revolutionary product ideas. Delivery is our strength. Our experience cuts through the mass of standards, protocols, and available technologies for IoT Products, Medical Devices and Consumer Wearables. This approach will ensure our clients achieve the right business outcome required from their investment in development efforts.

Rightstrategy

Profile Summary:
Rightstrategy has been successfully providing a range of 'business improvement' related services to the sector for over 25 years. In that time we have directly supported numerous Large Multi-National O.E.M’s as well as Small and Medium sized Enterprises both here in Australia and in overseas assignments.

We are a very cost effective solution for the sector.

We do not profess to be all things to all people, rather, we have a targeted service offering aimed at helping our customers get the right balance between being effective in the marketplace and being efficient with the delivery of their products and services.

Our team are very experienced and we ensure that level of experience and quality is maintained throughout the entire tenure of our improvement projects.

The objective of our team is to assist with the creation of sustainable improvement. We do this by using a very practical and hands on approach focused on engaging the customer’s team and transferring our knowledge and skills in the simplest possible way.

Through the ‘Boost Your Business Program’ we believe that we can add a lot of value to organisations whose capability includes design, manufacture and service support with sales revenue up to approximately $50 M.P.A.

Roaring Success Pty Ltd

Profile Summary:
Roaring Success Pty Ltd is a niche business consulting firm that has been helping our SME customers to overcome growth challenges in the areas of strategy, marketing and performance since March 2010.

Our customers generally have sales ranging from $3m-$5m at the lower end, averaging around $10m-$50m, and on up to $200m revenue; and find themselves in businesses with a mix of product development, manufacturing and service capability.

We have a wide range of industry and manufacturing experience including the automotive components sector, plastic parts production, metal components forming and the like.

All clients we work with generally need help with one or more of areas of strategy, marketing or performance.

In 2012, we created and ran the Ford of Australia, Supplier Diversification Program which helped 13 auto component suppliers to think through how to diversify. [Details available on request]

We have most recently been working as an approved supplier to help 11 clients on the Victorian Government’s ASCTP Program, and we regularly win work with manufacturing clients on the Federal Government’s Entrepreneurs’ Program.

We offer our services to eligible customers who are energised to create and win new business opportunities.

We have a team based methodology - operating the company with 1 director and 7 registered associates.

Robert Bosch Australia

Profile Summary:
Our Manufacturing Solutions division is globally recognised for their innovative work in engineering services. As part of our dedication to quality and customer satisfaction, we offer a highly structured approach to project management, overseeing the quality, cost of ownership and risk management, keeping our customers informed every step of the way.

Our flexibility in manufacturing solutions allows us to create:
1. Improvement of yield and throughput on assembly lines
2. Designing, building, installing and integrating assembly lines for electronic products in both low volume and highly automated/high volume applications.
3. Development of various assembly and joining processes
4. Integrating equipment into different servers / Manufacturing Execution Systems

Facilitating Design for Manufacturing process reviews and i4.0, resulting in significant manufacturing efficiencies, material, labour and equipment savings along with establishing robust and reliable manufacturing solutions. Bosch globally supports leading brands through all major industries and SME’s and sectors, to do things more safely, with greater efficiency and improved quality.

Solutions
1. Automated Test Systems
2. Production Automation Solutions
3. Turnkey Special Purpose Equipment
4. LEAN Manufacturing Services
5. Project Management
6. Mechanical & Electrical Design
7. Process Engineering
8. Control System Engineering
9. Integration to MES
10. Integration into all facets of i4.0
10. Assembly and Testing Facilities

Strategic Connections Group Unit Trust

Profile Summary:
Engineering, design and business services cover all stages of the project lifecycle. We cultivate resourceful cost-effective, best-for-project solutions, enhancing industry development and innovation, across new ideas and links to technology. We have a global network of knowledge transfer. Our team has over 40 years of experience in mechanical engineering, industrial design, construction, logistics, procurement, and environmental sustainability, and materials recycling. Our workforce’s diverse talent pool, generates different perspectives, inspires creativity, drives innovation, and results in the delivery of valuable outcomes.

- Project & Product Management: manage scope, planning, co-ordination, execution and problem-solving.
- Asset Management: holistic approach to manage physical & infrastructure assets throughout lifecycle.
- Research & Development: accelerate positive correlation between research, development and productivity.
- Risk Management: risk assessment, modifications, procurement, operational and safety factors.
- Supply Chain Management: integrated approach to create net value and build competitiveness.
- Tender Writing: communication & branding strategy, well-structured, persuasive and comprehensive submissions

Swinburne University of Technology

Profile Summary:
Swinburne University of Technology is one of the world’s leading universities, ranking within the top 3% of universities around the world, as assessed by the Academic Ranking of World Universities, and ranked in the Top 100 universities under 50 years of age by the Times Higher Education World University Rankings.

We combine innovative, leading-edge research in Advanced Manufacturing with outstanding research facilities. This, coupled with dynamic partnerships with industry, government and other research organisations and universities, leads to world-first research outcomes that have direct benefits for the local and global community.

Our in-house world-leading capabilities include: materials processing, Industry 4.0, manufacturing process development, robotics/mechatronics, nanotechnology, bio-devices, surface science, physical chemistry, biotechnology, solar materials, photonics, data science and business analytics, internet of things, business modelling, industrial design, and technology innovation.

Talk to us today about how we can help your Company get the business it deserves.

Systematiq

Profile Summary:
Systematiq is a Service provider that has Pre-Contract services to assist companies in positioning, shaping and capturing opportunities in the Defence and Security markets.

Treadstone Enterprises Pty Ltd

Profile Summary:
Treadstone offers a pragmatic approach to help manufacturers grow. We specialise in delivering capability improvement and business strategy consulting in line with the Boost Your Business voucher guidelines. Established in 2008, Treadstone’s consultants are industry practitioners who have deep backgrounds working with founders, CEOs and senior management at various stages of growth. We delivered workshops under the Victorian Government’s Innovation Voucher Program as an approved supplier from 2012 to 2014 and are pleased to be approved for the new Boost Your Business Voucher program in 2018.

Our clients are from a range of industry sectors including, food and beverage, transport, agricultural machinery, defense technologies, engineering, sport tech, furniture, glass manufacturing and construction.

- Business Process and Systems Improvements
- Market Development Plan

Our team has wide experience in evaluating business processes and systems and developing business cases for new technologies. We have experience in research, design and install of large scale processes. We can also review existing systems to maximise your operational performance and benchmark against best practice.

- Market Development Plan

Our approach is the pragmatic consideration of the current business assets, processes and value proposition in respect to the goals of the business owner and the market opportunities. We start with a comprehensive business review to capture the knowledge and sentiment of the business management team. We design tailored workshops to test and address the priority issues, and build your business roadmap with a clearly defined action plan.

TRICYCLE DEVELOPMENTS PTY LTD

Profile Summary:
Tricycle Developments is a full service product development organisation with a strong focus product commercialisation.

Our company is structured to provide an agile and personable service from initial idea generation through to product commercialisation.

We run a team of 16 staff with a proven network of partners. Our team has broad experience in developing products across the biomedical, medical, industrial, care and consumer product sectors.

We have a strong internal discipline in full program management of electromechanical solutions, industrial design, mechanical and production engineering.

Our Melbourne based studio and adjoining workshop and lab spaces combine as a collaborative environment designed for agile product development. This allows us to design, build and test in house ensuring proven solutions and successful project outcomes.

TXM Lean Solutions Pty. Ltd. ATF TXM Lean Solutions Unit Trust

Profile Summary:
TXM are Australia’s leading Lean Manufacturing consultants with offices in every state. Home grown in Victoria, TXM are now a global operation with offices in China, UK, France, Canada and the USA. The key to our success over the past 15 years has been our focus on delivering outstanding and sustainable business improvement through Lean, especially for SMEs. TXM Consultants pride themselves on being manufacturing people first and Lean manufacturing consultants second. Every member of our team has extensive practical manufacturing experience including in leadership and management roles in addition to their deep knowledge and experience in Lean Thinking. This means that we develop a program tailored to your unique needs that will deliver a sustainable business transformation.
