Sources: International and National Visitor Surveys, Tourism Research Australia (TRA), year ending June 2019.

To note: All growth rates noted are year-on-year percentage changes. Total visitors include both domestic and international overnight visitors, as well as those that may have visited as part of a day-trip (this does not include local visitors).

Improvements in the NVS methodology has resulted in a break in series. Please use caution when comparing 2019 results with previous time periods and releases. For further information on methodology changes and impacts refer to the Tourism Research Australia NVS Methodology.

This information is based on survey data estimates and may differ to the results of individual attractions that monitor gate entry numbers. Only a non-exhaustive set of attractions/places are included in the survey (this is not based on an open-ended question).
